Office Action Summary	Application No. 10/553,348	Applicant(s) BENOIT ET AL.	
	Examiner COURTNEY D. FIELDS	Art Unit 2437	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 October 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Reopening of Prosecution After Appeal Brief or Reply Brief

1. In view of the appeal brief filed on 21 October 2009, PROSECUTION IS
HEREBY REOPENED. A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the
following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply
under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed
by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and
appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth
in 37 CFR 41.20 have been increased since they were previously paid, then appellant
must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by
signing below:

/Emmanuel L. Moise/

Supervisory Patent Examiner, Art Unit 2437.

Telephone Interview

****Prior to reopening this application, the Examiner contacted Attorney Stiltner
addressing possible 112 issues with regards to claim 1. Attorney Stiltner argued that
there should be no confusion with regards to claim 1 because the claim was written
clearly and the specification reads directly upon the claim.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 discloses within the claim "off card - from variations between the data of the original code and the corresponding modified code, calculating a software component which, when it is applied to the original code, makes it possible to reconstruct the modified code". However, it is not clear in the specification where the method steps are being performed off card. There appear to be support shown for method steps being performed only on card and not off card. (See Applicant specification, page 12, lines 2-6). Claim 1 discloses a software component, however, it is unclear within the written description of the specification, which software component is being used in the claim. (See Applicant's specification, page 10, lines 21-30) There appear to be a "supplementary software CL" and "software component CL". Both words have the same acronym associated with them which creates confusion for the Examiner. Please clarify.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 2437

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 recites the limitation "modified executable code" in line 8 of the claim.

There is insufficient antecedent basis for this limitation in the claim.

6. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The method step off card does not clearly show how the modified executable code is being generated before it is identified. According to the Applicant's specification, page 10, lines 10-16, there appear to be support for generating a modified executable code by downloading the original executable code into the card and adding it to a software component, however, this step has been omitted from the claim, making it difficult to understand how the modified executable code is being generated before it is identified off card. Please clarify.

Claim Objections

7. Claims 1, 4, and 5 are objected to because of the following informalities: The word "its" should be replaced with the word "the" or removed from the claim limitation.

The word "its" is inconsistent terminology and should not be used in a claim.

Appropriate correction is required.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to COURTNEY D. FIELDS whose telephone number is (571)272-3871. The examiner can normally be reached on Mon - Thurs. 6:00 - 4:00 pm; off every Friday.

Art Unit: 2437

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Emmanuel Moise can be reached on 571-272-3865. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
